

# EDUCATION

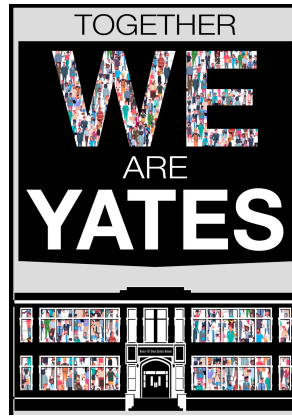

Education is the main priority at Yates. All organizations housed in the building have an educational component as part of their programming.

# EMPLOYMENT

Tenant organizations' programming focuses on job skills needed for New Americans to thrive in Omaha. Holiday markets and creative workshops allow our community members to grow their businesses beyond the facility.

# COMMUNITY

Known for their commitment to New Americans, refugees from around the city are familiar with the historic offerings at Yates. The Gifford Park Neighborhood Association also maximizes the campus of Yates beyond the school boundaries.
